Slovakia

Purpose and method of the intended use of products:

Products are used for finishing of coverings and tiling in corners, angles, stairs, balconies, terraces when tiling dilatation and when attaching coverings and tiling to various construction materials.

We are delivering an opinion regarding you application.

**These products are not subject to assessment of parameters if used in accordance with the specified purpose and method of intended use**

### Reasons:

The product in its nature does not correspond to products mentioned in Annex 1 of Decree n. 162/2013 Coll. of the Ministry of Transport and Construction of the Slovak Republic, establishing a list of construction product groups and a system of parameters assessment in the text of Decree n. 177/2016 Coll.

The validity of the opinion is limited to a period up to November 29, 2019.

In Bratislava, November 11, 2018

prof. Ing. Zuzana Sternová, Phd.  
Director
